

## AIR QUALITY

ALL EMPLOYEES;

BELOW IS THE LINK TO THE LRAPA WEBSITE

<http://lrapa.org/216/Todays-Current-Air-Quality>

Notification to employees understanding the safe limit criteria we are using to determine whether or not shops are open, we are using the LRAPA (Lane Regional Air Protection Agency) air quality gauges.

WPI would like to see the air quality at the 101-150 range before we return to work.

Shops will be closed for the weekend and we will check air quality starting Monday morning.

Please be safe over the weekend, limit your outside exposure and if you must go out please use PPE, N95 face masks are the best option.

Regards,  
Earline
