Parts & Service

WPI Update May 15, 2020

As Oregon and Louisiana along with other states begin to reopen Western Pneumatics, Inc. will continue to practice caution.

Western Pneumatics, Inc., has remained open and operating per normal hours meeting existing schedules and we will continue to do so.

Continued safe distancing, sterilizing continuously throughout the workday, and practicing good hygiene will be a consistent at Western Pneumatics, Inc., for quite some time. Also, our practice of appointment scheduling, limited in person meetings, answering the health questionnaire when coming into WPI is a requirement.

If you are symptomatic or suspect you've been exposed to the virus, you must stay-home.

We value your safety and health as well as the safety and health of our employees.

If you have any question or concerns, please contact us.
